Jeux

FR

Comme dans le reste des espaces publics, les parcs et les zones de loisirs ne peuvent être considérés complets sans la contribution du mobilier. Chez Galopin nous sommes guidés par le désir d'apporter à l'espace public, cette maison de tous, le sentiment de bien-être et de confort que nous apprécions chez nous.

Éléments de signalisation, poubelles, panneaux d'information, palissades... nous recherchons des designs simples, qui s'intègrent à l'environnement et au reste des produits de nos gammes. Pour guider et signaler clairement afin que les utilisateurs du parc aient toujours les informations ou les services dont ils ont besoin.

Nous prenons particulièrement soin des tables, des bancs et autres éléments d'assise parce que les parcs ne sont pas seulement le territoire naturel des enfants, mais aussi celui des adultes et des grands-parents. C'est pourquoi nous étudions les courbes des dossiers ou les angles des sièges avec la même attention que nous portons à la réalisation de tous nos jeux. Un siège bien conçu est synonyme de repos, de temps de collation, c'est l'endroit idéal où laisser ses vêtements pendant le jeu. C'est aussi une invitation au dialogue, la rencontre sociale et la coexistence.

EN

As is the case with all public spaces, parks and leisure areas cannot be considered complete without the presence of Furniture. In Galopin we are guided by the desire to bring to the public space - that house we all share - the feeling of comfort that we enjoy in our homes.

Signs, bins, information panels, fences ... we look for simple designs that can be integrated into the environment and with the rest of the products from our ranges. Elements to guide and inform in a clear manner so that park users always have the data or services they need.

We take a special interest in the tables, benches and seating elements because parks are not only the natural setting of children, but also of adults and grandparents. That's why we study the curves of the backs or the angles of the seats with the same attention with which we design all our games. A well designed seat means rest, snack time, a place to leave the clothes that is not needed during playtime and then recovered to avoid getting cold. It is a dialogue, a social gathering and a coexistence.

MOBILIARIO

Como ocurre con el resto de los espacios públicos, parques y zonas de ocio no pueden considerarse completos sin la aportación del Mobiliario. En Galopín nos guiamos por el deseo de llevar al espacio público, esa casa de todos, la sensación de bienestar y confort de la que gozamos en nuestros hogares.

Elementos de señalética, papeleras, paneles informativos, cerramientos... buscamos diseños sencillos, que se integren con el entorno y con el resto de productos de nuestras gamas. Que guíen e informe de manera clara para que los

usuarios de los parques cuenten siempre con los datos o los servicios que necesitan.

Y cuidamos especialmente las mesas, los bancos y los elementos de asiento. Porque los parques no son solo el territorio natural de los niños, sino también de los adultos y los abuelos. Por eso estudiamos las curvas de los respaldos o los ángulos de los asientos con la misma atención con que diseñamos todos nuestros juegos. Un asiento bien diseñado es descanso, hora de la merienda, lugar donde dejar la ropa que sobra durante el juego y recuperamos luego para que no se enfríen. Y es diálogo, tertulia y convivencia.
